Project Summary: The primary goal of the City of Lancaster's Illegal Disposal Gant is to reduce the amount of illegal disposal sites, eliminate hazards that immediately affect public safety, by developing a program using a combination of site maintenance, outreach, education and targeted enforcement measures to prevent or illuminate illegal dumping. The objective is to change illegal dumping behaviors and provide the community with a sense of ownership, thereby reducing future illegal dumping activity. Our intent is to systematically determine where prominent areas of illegal dumping are occurring, assess and remove all debris from those areas, create a barrier limiting access to those sites, and post warning signs and surveillance cameras to deter illegal activity and educate the public.
